Transmission Shipping and Core Return Procedure

In order to maintain the warranty on your exchange transmission, follow all instructions, printed on the bottom of the invoice (placed on top of the Shipping Box) and the instruction sheets attached to the transmission.

On all transmission, fixated with dowel pins to the engine, you must ensure the presents of the dowel pins and the correct line up.

The transmission will be shipped to you with a complimentary 2-gallon cooler flusher free of charge. You have to use the flusher, provided by Precision European, to clean the transmission cooler lines and the radiator (use mineral based Solvent/Diesel). Not using Precision European's flusher voids, the warranty.

Core Return Pickup Instructions

Remove the Bill of Lading from the pouch that was attached to the Transmission.

Remove all old Tracking Numbers Stickers from the Shipping Box.

Drain all fluid from transmission and torque converter. Dump remaining solvent from the flusher, make sure all hoses and adapters are returned with the flusher and place all items in the shipping box. Check if the transmission and flusher are secure and cannot move around, causing damage to each other.

When you ready for the Core Pickup you can e-mail to sales@peius.com
Make sure to have your Company Name and Phone Number in the E-mail

If you have any questions, please feel free to call Phone 714 241 9657
